

# ALM POSITIONERS

"Most of the service calls we receive come in during or immediately following installation. Verifying the proper installation and use of the system correlates to increased life span of the components."

**BRETT STEWART**  
Director of Operations

## START-UP SERVICES

### EXPERT TRAINING, **MAXIMUM EFFICIENCY.**

Made in the U.S.A.

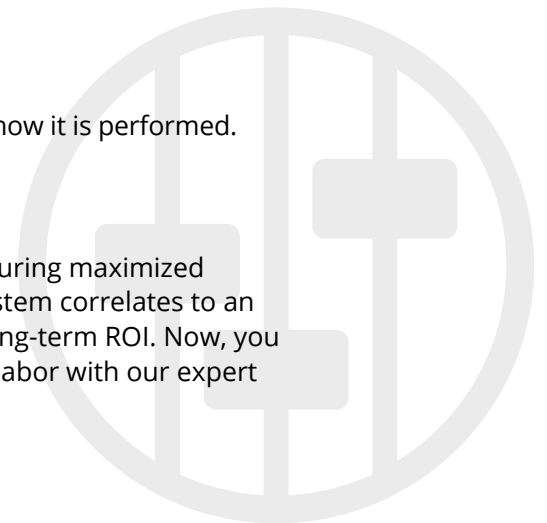

With your new ALM positioner in place, give your team the best training and optimization of your processes with start-up services. An ALM technician will spend time with your staff ensuring your positioner is operating correctly on your floor with your product.

#### **Start-up services include:**

- + Optimized PLC settings.
- + Training on the use of the positioner.
- + Review of the recommended preventive maintenance schedule and how it is performed.

**INVESTMENT:** \$500 + time, expenses and materials

**BENEFITS:** Our start-up services focus on your unique settings, ensuring maximized productivity. Not only will you gain efficiency, but proper use of the system correlates to an increased life span of the components of your positioner, leading to long-term ROI. Now, you can eliminate service calls after installation and empower your skilled labor with our expert technicians from the start.

## SETTING UP FOR START-UP

We work quickly and efficiently to ensure minimal interruptions. To make the process as quick as possible, we'll ask you to provide:

- Installation of any tooling that will be used on the positioner.
- Set up of the parameters of any purchased safety scanners.
- Time allotment for requested personnel to receive training.
- Requirements for the min/max heights settings.
- Requirements for the min/max rotational speed settings.
- PPE requirements for the work area.

### COMPLETE DEDICATION. COUNT ON IT.

ALM Positioners is dedicated to providing complete customer satisfaction. That means meeting our customers' goals by delivering solution-based intelligent positioners with a service experience that is second to none.
