

BETTER. FASTER. SAFER. SMARTER.

Meet VIKI OS — the Voice Initiated, Kinetic Intelligence Operating System that's changing the game for welders everywhere. Designed to boost efficiency and safety, VIKI OS lets operators control ALM positioners with voice commands — no need to stop or break focus.

ALM
POSITIONERS

NEXT-LEVEL PRODUCTIVITY WITH AI-POWERED INTEGRATION.

VIKI OS seamlessly integrates into an operator's helmet, enabling hands-free control using voice commands. The result? Fewer steps, fewer mistakes and a streamlined workflow — all with safety at the forefront.

KEY FEATURES

+ Voice-activated controls

Adjust height, tilt and rotation in real time without interrupting workflow. VIKI OS confirms commands before executing movements, minimizing miscommunication.

+ Redefining Efficiency

Experience improved performance and productivity with less downtime.

+ Built-in safety measures

A one-second pause after each command prevents accidental activations and ensures operators remain in full control.

WHY VIKI OS?

"Machine, rotate 90 degrees."

VIKI OS isn't just about convenience — it's about getting more done with less effort. Here's what that means for your team:

✓ **MINIMIZED RISKS**

Reduces human error by verifying every command before execution.

✓ **STREAMLINED WORKFLOWS**

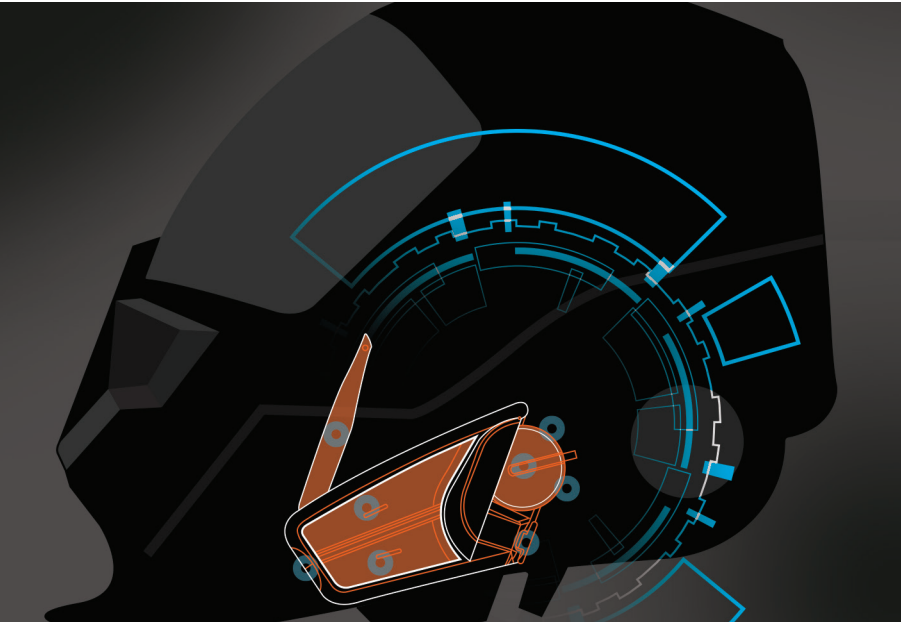

Hands-free operation eliminates unnecessary steps and boosts efficiency.

✓ **ENHANCED SAFETY**

Reduces physical strain and distractions, lowering the risk of repetitive stress injuries.

✓ **INCREASED PRODUCTIVITY**

No more stopping to manually adjust settings — get more done in less time with greater precision.

TRAINING THAT KEEPS YOU IN CONTROL.

Technology is only as powerful as the people using it. That's why we provide training to help your team get the most out of VIKI OS and your positioner.

SMARTER WELDING STARTS HERE.

The future of manufacturing demands innovative solutions that drive both productivity and safety. VIKI OS represents our commitment to developing advanced technologies that deliver real value on your shop floor.
